Counterfeit Policy

Counterfeit products are becoming a major concern within the electronics industry supply chain. NorComp purchases all of our component and raw materials directly from the manufacturer or one of their authorized distributors, and we strongly encourage our customers to purchase from one of our authorized distributors or on a direct basis.

A list of our authorized distributors and manufacturers representatives is available on our website. For any questions about the genuineness of NorComp products, please contact us directly or via your local manufacturers representative.
